Net Contents: 2.5 Gallons
Net Contents: 250 / 265 / 275 Gallons
Weight Per Gallon: 11.0 lbs.

General Information: Plant Agra Crop Finisher is a fertilizer which contains high potassium, manganese, and boron for bulking up and finishing the following agronomic crops including but not limited to the following: Alfalfa, Corn, Cotton, Peanuts, Soybeans, Strawberries, Sugar Beets, Stone Fruit, Grapes, Apples, Pears, Nutcrops, Citrus, Avocados, Tree Crops, Flow Crops and Vegetables. Apply in foliar Sprays or Irrigation Water as a supplement to a regular fertilizer program. Will not by itself provide all the nutrients normally required by crops.

Foliar Applications: Add Plant Agra Plus to fertilizer formulations or apply by itself at 1-2 pints per acre.

Information regarding the contents and levels of metals in this product is available on the internet at http://www.wa.gov/agr/.

Use this product in accordance with good agronomic practices, which include utilizing proven spray equipment set for proper coverage. Do not make applications when temperatures are too hot, as crop damage may occur. Applications should be made at temperature levels and when other environmental conditions in your area are such that your experience indicates the application will be compatible and will accomplish the desired result.

The use of this material being beyond our control and involving elements of risk to human beings, animals and vegetation, we do not make any warranty, expressed, or implied, as to the effect of such, when this product is not used in accordance with the direction as stated on this label.
